**"WITHIN 3 YEARS OF EXPERIENCING MAJOR DISRUPTIONS IN MY CAREER,
BUSINESS & MARRIAGE, I ACHIEVED FREEDOM."**

FROM being a C-Level Executive of a company nationally recognized as an INC500 fastest growing company TO closing our doors 90 days later or FROM starting a new life with the one you love TO experiencing a painful heartbreak or FROM owning a multi-million dollar real estate portfolio TO living in a 10 x 12 room.

"How could this have happened to me? I am too smart, too educated, and too good at what I do to be nearly bankrupt – financially and personally. I felt embarrassed and like a failure."

Nate Scott knows from experience that life can change in an instant.

Life happens, and when it does, you must accept responsibility, assume a defensive position while stabilizing, keep your head up, and persevere.

What has been the lowest point in your life? What would you consider as the most disruptive thing that could happen in your personal or business life?

Disruption and life transition is change. They are life's way of asking us to reexamine our present way of being and force us to develop and grow as individuals.

Nate Scott provides a blueprint to help people going through or coming out of expected or unexpected, welcomed or unwelcomed, chosen or imposed, sudden or gradual life transitions.

WHAT PEOPLE ARE SAYING

“

I previously hired Mr. Nate Scott to speak at a series of job fairs / career expo's hosted by my company. Nate is without a doubt a subject-matter expert and champion in the arena of professional development, lifestyle and passion coaching. He provided tangible insights with sincerity and held the audience's attention. Nate has tremendous energy and a command presence and exceeded the results that I had expected. This was evidenced by the number of participants that followed him into the hallway with additional questions. Now I know to allocate more time the next time I hire Nate. I highly recommend that your organization hire Nate Scott as a Keynote Speaker for trade shows, conferences, corporate events and consulting opportunities.

My ask was for you to address "Luxury Branding," adding your unique perspective for my firm's team members. You delivered above and beyond.

As one team member said, "Nate Scott gives you ideas, directions, and actions to take to help you grow personally and professionally."

I reached out to Nate to help us with our Diversity, Equity, and Inclusion Virtual Lunch team meeting. We wanted to have someone come in for Veterans day to speak to our team. As a keynote speaker/discussion facilitator Nate did his homework on our organization, digging into the mission of our team and tailoring his message to deliver valuable insights and guidance.

Nate's principled centered leadership puts the audience at the center of his focus and engages them and challenges their thinking. Thinking differently is critical as you transform any organization and that comes through in his presentation.

INDEPENDENT NATIONAL SALES DIRECTOR

I wanted to help women to increase their income and their level of joy, but I didn't quite know how to do that. Nate helped me to see my value outside of the company I was with by teaching me to understand how **I AM THE ASSET.**

Nate has mastered the art of listening. He listened intently to the problem and goal I wanted to achieve, and he customized a plan for me to create lasting solutions. my personal joy levels have increased exponentially as I am helping people to increase their income while at the same time creating real residual income for my family.

ADVISOR, IMAGEN TECH

“

The outcome Nate Scott delivered was teaching me to think differently. Although I felt rewarded in my career, I was stuck in my consulting mindset. With Nate as my coach, I learned a new way to value my skills.

As a result, I enhanced my ability to offer more, push harder, and possibly reap the benefits of my service long after I'm gone.

Nate looked at how I was paid in my consulting role. He didn't say I was paid poorly, however, he taught me how to get paid based on a percentage of the improved bottom line my knowledge and expertise provides.

CHAIR - PROFESSIONALS IN HUMAN RESOURCES ASSOCIATION

As a business owner, I needed someone with the expertise and one who understood the dynamics of business growth; "taking your business to the next level", as they say. I explained to Nate the need to re-strategize my business plan and get more clientele to my door. The "out of the box" recommendations and strategies he offered through his services has reaped the results I was expecting. Nate's extensive background as a Passion Coach & Lifestyle Design Strategist also has enhanced other areas in where I have become a better leader and business professional.
